

BRENDAN FLANAGAN

Internationally shown, this OCAD graduate creates toxic-coloured post apocalyptic views with zombie-like creatures and has been said to have reinvented the Canadian landscape as a thriving toxic wasteland of lushness & turbulence. About to begin his MFA, Brendan squirts, swirls, & pours the acrylic and oil paints onto the large canvases slickly & assuredly, confident in his final result.

Born May 05, 1983 in Hay River, NWT
Lives and works in Toronto, ON
